

Capgemini Mexico is looking for a Material Requirements Planner!

Experience level: Mid-level / Senior

Contract type: Permanent contract

Business unit: Business Services

Department: Supply Chain

Overview

The material planner is responsible for the acquisition and supply management; he/she will control the supply of raw materials that will impact other planning areas.

What will you do in this role?

- Analyze our stakeholder's needs and create a material resource plan that aids in its achievement.
- Supervise and administer both the local and foreign purchases that have a direct impact in the Material Resource Planning area.
- Interact with providers and support areas such as material quality and procurement to guarantee the proper execution of the developed material plans.
- Supervise and adjust the inventory level to guarantee the availability of resources during the material plan's execution time span.

Qualifications:

- 3-5 years of experience in material requirements planning.
- Previous experience working within the mass consumption industry is desirable.
- Strong knowledge in SAP, Oracle or any other similar ERP is a must.
- Strong analytical skills.
- Good communication skills.
- Medium – advanced English proficiency.
- Medium – advanced Excel proficiency.
