

**WE  
ARE**

Capgemini Columbia  
delivery center

A recent grad in computer science or computer information systems. We could be the best next step on your career path.

**YOU  
ARE**

## MY WISH LIST

"I want to build on my education with training and certifications."

"I'm looking for challenges and networking opportunities."

"I want the excitement of working closely with a small team of colleagues."

"I want the opportunities and security of working for a large, global firm."

## COLUMBIA DELIVERY CENTER

We help clients leverage the cloud

Product Oriented Delivery (POD) service model

Full development lifecycle: End-to-end delivery of systems, services, and solutions

About 250 developers. Average age: mid-20s.

Open floor plan with grouped desks facilitates face-to-face collaboration

Excellent opportunities for face time with leadership

## THE REWARDS

**A variety of  
challenges  
and experience**

Knowledge sharing and cross-collaboration.

Typical projects run 3 to 12 months

**Build skills and achieve certifications, including:**

Azure Full Stack Development

React

Angular

Azure DevOps

Azure Integration

.NET, C#

Power Platform

Azure Cloud Native Development

## Networking

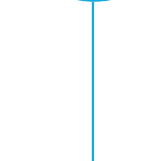

Build friendships and teams vs. the typical nomadic consulting experience

Connect with Capgemini team members across the USA and around the world
