SECURE AND AGILE NETWORKING

YOUR HIGHWAY TO DIGITAL TRANSFORMATION

Capgemini SASE and SD-WAN Solutions
powered by VMWare

IS YOUR NETWORK READY FOR THE FUTURE?

To become an agile, app-driven organization and thrive in an anywhere working world, you need secure, uninterrupted access for your users, no matter where they're located.

However, traditional networking models aren't fit to support your digital transformation journey. To support access to SaaS applications, more data moving to cloud, and increased traffic at the edge, a new approach is needed.

A cohesive multi-cloud network that's fast – and highly secure

Capgemini's SASE solution, powered by VMware SASE Solutions, is the answer. It combines VMware's SDWAN and SASE solution with Capgemini's expertise and managed services to provide a flexible, multi-cloud service model. The partnership improves application performance and ensures end-to-end dynamic security

ALL USERS	Consistent network and security policy		ALL APPS
Mobile	**SD-WAN GATEWAY** Improves app performance.	**CLOUD WEB SECURITY** Allows secure access to the web.	IaaS
Home			SaaS
Office	**SECURE ACCESS** Allows contextual Zero Trust security.	**NSX FIREWALL** Proactively flags and stops threats. *Coming Soon	Data center

vmware SASE™

Consistent secure user experience
Zero Trust Access

A cohesive integrated network removes legacy complexity and drives secure network consistency.

Improve business performance with SASE

Secure end-to-end connectivity improves the digital user experience, drives improved IT efficiency, and protects against advanced threats, while offering software-defined scalability.

✓	**Enhanced user experience**	Consistent user access	Minimize latency	Traffic optimization
✓	**Uncompromised security**	Zero Trust Security	Contextual access policies	Secure end-to-end
✓	**Maximum IT efficiency**	Reduce maintenance	Reduce costs	Drive automation
✓	**Software-defined scalability**	Cloud integration	Performance at scale	Cloud extensibility

Lay the foundation for digital transformation

SASE, or Secure Access Service Edge, lays the groundwork for your digital transformation and application modernization ambitions, so you can thrive in a competitive marketplace.

BUSINESS AGILITY
Cloud integration allows the network to underpin an agile and scalable business model.

EMPLOYEE PRODUCTIVITY
Improves employee productivity through secure anywhere, anytime access.

APP-DRIVEN INNOVATATION
Supports the use of innovative applications and technologies such as IoT with confidence.

CUSTOMER-CENTRICITY
Improves business responsiveness to customers and their changing needs.

Value delivered fast, without disruption, end-to-end

Using Capgemini's proven methodologies and deep technical expertise, SASE and SD-WAN can be implemented at speed, with minimal disruption to support your long-term ambitions.

IMPROVE SPEED TO VALUE
Zero touch provisioning accelerates implementation avoiding manual configuration.

MINIMAL DISRUPTION
We minimize disruption through a unique parallel phased implementation methodology.

END-TO-END SUPPORT
We offer end-to-end networking services, from strategic assessments and design, to ongoing managed services.

Why we're different

We're unique in combining technical networking skills comparable to an expert telco but exceed them with the transformation and industry expertise of a strategic advisor with an end-to-end view of your business.

LEADING NETWORK PROVIDER

Networking credentials
We're expertly qualified with over 600+ multi-vendor and 120+ SD-WAN experts.

Global support footprint
We have 200+ clients globally with in-house automation and 24/7 support.

TRUSTED STRATEGIC ADVISOR

Digital transformation expertise
We're industry and domain experts with heritage in large-scale transformations.

End-to-end transport-agnostic capabilities
We're able to transform your business as well as your network.
